

CITY OF LAWRENCEBURG CLASS III LANDFILL PERMIT MODIFICATION – COMMENTS WELCOME

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has tentatively decided to issue a solid waste disposal facility permit major modification to The City of Lawrenceburg for their Class III Landfill. This major modification will result in an additional 8.32 acres of disposal area through a lateral expansion of the existing landfill.

The facility, identified as City of Lawrenceburg Class III Demolition Landfill (DML500000129), is located in Lawrence County at Grinnell Drive, Lawrenceburg, Tennessee (latitude 35.2054° N/longitude -87.3827° W). This permit would allow construction, operation, closure, and post-closure care of the Class III disposal facility which may include construction and demolition waste, including but not limited to: scrap lumber, brick/block, wood (trees, brush, etc.), shingles, vinyl and aluminum siding, concrete, furniture, other non-hazardous construction and demolition related waste, and/or certain wastes having similar characteristics and approved in writing by TDEC. Waste materials that will not be allowed for disposal at this facility include, but are not limited to: liquid waste, tires, medical waste, mattresses, box springs, white goods, dead animals and ash generated from municipal solid waste combustion processes. No special or sanitary wastes will be accepted at this facility. No hazardous wastes, as regulated by the Tennessee Hazardous Waste Management Act (Tennessee Code Annotated, Section 68-212-101, et. seq.) and the Rules adopted pursuant to the Act, shall be accepted for disposal at this facility. The official responsible for operation of the facility is Chris Shaffer, City Administrator, City of Lawrenceburg, 25 Public Square, Lawrenceburg, TN 38464 (931-766-1251).
